Our mission:

- To help your young student develop stronger academic skills in Reading, Math, and Writing
- To help your young student attain better concentration, focus, and attention span
- To square off your young student's morale and maintain success with instruction in smaller groups.

California is facing increasing class sizes as a result of state budget cuts in education. This means that **YOUR** child's education **MAY** be affected as teachers are burdened with more students in the classrooms.

More students in the class means less individualized attention for your young student.

Remember that every child deserves a chance to learn and no child succeeds alone. **We are here to help!**
